

INFLUENZA AND COLD SEASON

IN ORDER TO PROTECT THOSE IN OUR CARE AS WELL AS STAFF FROM COLDS AND FLU; WE ASK THAT IF YOU ARE NOT FEELING WELL OR HAVE ANY FLU-LIKE SYMPTOMS,
PLEASE DO NOT VISIT UNTIL YOUR SYMPTOMS ARE GONE.

It is extremely important to us not to expose your loved ones to any illness. In an effort to minimize the possibility of spreading influenza and cold, if you are exhibiting signs or symptoms of illness, you may be denied visiting privileges until you are no longer symptomatic.

Please be sure to cover coughs and sneezes. The best preventative measure is to frequently wash your hands. Hand sanitizer may be available in visit areas and you are welcome to use it, but it should not be used as a substitute for good hand washing practices.

Thank you for your cooperation.
Please also see the related Department of Health poster.
